

Cordial invitation to the summer meeting of the European Waterpark Association e.V.

7 to 9 May 2025 at Phantasialand Brühl

**"Get to know best practice examples and expand your network":
Emser Therme - Moselbad Koblenz - Therme Euskirchen with "Immersive Sky"**

Every year, the European Waterpark Association organises a congress and a summer meeting. Both events are the highlights of the annual programme and serve the purpose of networking and learning about new developments and trends at an international level. Another summer meeting is on the programme for 2025. This year, we will stop off at Phantasialand Brühl and visit best-practice examples from the waterpark industry.

With 100 guests (the number of participants is limited!), we will visit three waterparks and spas with very different profiles and also experience what a large leisure park such as Phantasialand has to offer its guests. The summer meeting has the character of a study trip and at the same time offers time and space for mutual exchange of experiences.

Be part of this industry highlight and take the opportunity to network with colleagues from the pool and leisure industry.

An important note: In order to give as many members as possible the opportunity to attend the summer meeting, the number of registrations per company is initially limited to 3 people per company. If there are still places available after 15 April, this limit will be lifted. We expect a great deal of interest in the programme and therefore recommend that you register as soon as possible. Please also note that payment for your overnight stay must be made directly to the Hotel Ling Bao in Phantasialand. You will find further information on this at the end of this invitation.

EMSER THERME

The Emser Therme in Bad Ems is one of the flagships of the Kannewischer Collection and is characterised by its progressive architectural language (4a Architekten Stuttgart). With its opening, the traditional spa city was catapulted into the future. The sauna area with its floating sauna is particularly worth seeing. The Emser Therme also has its own spa hotel.

MOSELBAD in Koblenz

The Moselbad in Koblenz was planned by KRIEGER Architekten | Ingenieure as a combined indoor sports and family pool with a large sauna facility and opened in August 2024. It is operated by Koblenzer Bäder GmbH. The Moselbad thus combines an offer for municipal services of general interest with a wellness landscape. It is located in a loop of the Moselle shortly before its confluence with the Rhine.

THERME EUSKIRCHEN with "Immersive Sky"

Therme Euskirchen is the Wund Group's latest project and combines a spacious spa and sauna landscape under one (openable) roof. The integration of the therme landscape into a "forest" of real palm trees and exotic plants has been continued into the virtual world since spring 2024 with the "Immersive Sky" experience in the sauna area. Therme Euskirchen was honoured with the EWA Professional Award for this wellness concept.
